## **NO STUDENT Visa Process after arrival**

With this option students can enter Peru **without a STUDENT visa**, but it is important to consider the following:

- The migration staff will decide at that moment how many days of stay in Peru will be granted to each student (it should be 180 days in the case of getting less than 180 days you would have to do the extension process ("cambio de calidad migratoria temporal"). This process can only be processed personally by each student and must be done once you are in Peru (The Ministry of Foreign Affairs does not allow another person to do the process, so it will not be the responsibility of the ESAN international office)
- When going through immigration at the Lima airport, it is recommended to show the letter of acceptance.

## **Extension process ("cambio de calidad migratoria temporal"):**

**Is recommend starting this process one or two months before the stay days expire because sometimes it is difficult to get an appointment.**

1. Check how many days of stay you have:  
<http://cel.migraciones.gob.pe/ConsultaTAMVirtual/VerificarTAM>
  2. If you have obtained less than 180 days, you must do the procedure to extend the days of stay in Peru: "Cambio de calidad migratoria temporal". This process must be started 30 days before the days for your stay expire.  
Link Information and documents to do the process: <https://www.gob.pe/12923-cambio-decalidad-migratoria-temporal-solicitar-cambio-de-calidad-migratoria-por-formaciontemporal>
